

High Performance Timber Windows

Bespoke made to measure service – perfect for individual windows built to your dimensions

Craftsman Stormproof Windows

This style of window features rebated sashes which lip over the face of the frame providing a tighter weather seal.

Craftsman Traditional Flush High Performance Windows

A traditional style casement window with opening sashes which close into the frame to give a flush finish.

Standard features of both windows:

- 1 Friction stays for easy clean
- 2 Security Espagnolette multi-point locking
- 3 Handles available in white, brown, black, chrome or brass
- 4 24mm low E glazing in clear, obscure or toughened
- 5 Concealed external trickle ventilation
- 6 Ovolo style moulding to inside of window, splayed glazing bead to outside
- 7 Hard wood cills 145mm overall (76mm projection) grooved for window board
- 8 Available on 10-14 day lead time
